

## Conti Engineering Support Announces Collaboration with ETM Manufacturing

October 1, 2020

Conti Initiative Inc dba Conti Engineering Support and Sajawi Corporation dba ETM Manufacturing are pleased to announce that they have signed a collaboration agreement that will help them provide design to manufacturing for companies seeking innovative solutions for their toughest challenges.

As part of the collaboration agreement, Conti Engineering Support will co-locate with ETM Manufacturing at 24 Porter Road in Littleton, MA and both parties will seek opportunities to leverage the strengths of both organizations for current and new customers.

Conti Initiative Inc dba Conti Engineering Support provides Complete Engineering Services including design, detail, prototype, and fabrication. They have over 20 years of experience in the engineering field supporting established businesses that require design expertise and playing a critical role in the success of start-up companies.

Sajawi Corporation dba ETM Manufacturing is a leading sheet metal fabrication and machine shop for companies seeking to source prototypes to low volume production. ETM Manufacturing has a 50 year history of providing manufacturing solutions to customers in the greater Boston market.
